PROFESSIONAL SUMMARY

IT Professional with 3 years of experience in technical support, Windows systems, networking, Active Directory, and IT infrastructure. Microsoft SC-900 certified with hands-on cybersecurity lab experience in PowerShell threat detection, Windows incident investigation, Wazuh security monitoring, and Nessus-based vulnerability assessment and remediation validation. Familiar with Windows security event analysis, detection rules, and MITRE ATT&CK mapping. Seeking a Junior SOC Analyst, Security Operations Analyst, or Junior Cybersecurity Analyst role.

TECHNICAL SKILLS

- **Security Operations & Detection**:
  SOC monitoring, security event analysis, detection engineering, alert triage, incident investigation fundamentals, MITRE ATT&CK, Vulnerability Assessment, Vulnerability Remediation & Validation
- **Windows Security**:
  Windows Security Event Logs, Event ID 4688 (Process Creation), PowerShell activity analysis, process and command-line analysis
- **Scripting & Automation**:
  PowerShell, XML event parsing, regular-expression based detection, Base64 decoding
- **Security Tools**:
  Nessus Essentials, Wazuh SIEM
- **Identity & Access**:
  Active Directory, Group Policy, Windows user and security administration
- **System & Infrastructure:**
  Windows, Windows Server 2016, system troubleshooting, hardware/software installation, system maintenance
- **Networking:**
  TCP/IP, switching, routing, wireless networking, network troubleshooting
- **Virtualization:**
  VMware, VirtualBox, Windows virtual machines, local security lab environments

HANDS-ON SECURITY PROJECTS

PowerShell Threat Detection - Windows Security Monitoring | GitHub

- Built a PowerShell-based detection tool using Windows Security Event ID 4688 to identify suspicious PowerShell execution patterns and map findings to MITRE ATT&CK.
- Investigated detection results in a Windows 11 lab and documented reproducible evidence.

Windows SOC Incident Investigation - PowerShell Process Analysis | GitHub

- Investigated controlled PowerShell activity using Windows Security Event ID 4688 and PowerShell Operational Event ID 4104, correlating process, command-line, parent-child, and network telemetry.
- Reconstructed the activity timeline and documented evidence, analyst assessment, and MITRE ATT&CK relevance.

Wazuh Windows Security Monitoring & Detection | GitHub

- Developed and configured a Wazuh-based SOC lab to monitor Windows security telemetry, including Event ID 4688 process creation events.
- Developed and validated a custom Wazuh Level 10 detection rule to identify PowerShell -EncodedCommand activity, with MITRE ATT&CK mapping to T1059.001 and T1027.
- Investigated Wazuh alerts by analyzing process and command-line telemetry, documenting detection evidence and applying a SOC-style investigation workflow.

Vulnerability Management & Remediation Lab | Nessus Essentials | GitHub

- Conducted authenticated and unauthenticated vulnerability assessments against a Windows lab host using Nessus, analyzing findings by severity and documenting unresolved risks.
- Applied the registry mitigation for CVE-2013-3900 and validated the result through an authenticated rescan, confirming the finding was no longer detected.

PROFESSIONAL EXPERIENCE

IT EXECUTIVE

Mother Earth Resources Pvt. Ltd., Odisha| January 2023 - October 2025

- Provided first-level technical support and troubleshooting for Windows systems, hardware, software, networking, and end-user issues.
- Managed and supported IT infrastructure including servers, networking equipment, storage systems, and end-user devices.
- Performed routine system maintenance, updates, backups, and troubleshooting to maintain system availability and reduce operational disruptions.
- Maintained IT asset records and coordinated equipment procurement, deployment, tracking, maintenance, repairs, and warranty services.
- Installed, monitored, and troubleshot organizational CCTV and biometric systems, supporting physical security and access-control infrastructure.
- Investigated and resolved technical incidents while coordinating with users, vendors, and internal stakeholders to restore services efficiently.

OFFICE ASSOCIATE

Thermax Limited, New Delhi | July 2022 - September 2022

- Supported daily office operations and administrative activities.
- Assisted with routine coordination and documentation tasks.

CERTIFICATIONS

Microsoft Certified : Security, Compliance and Identity Fundamentals (SC-900)
Microsoft | February 2026

Google IT Support Professional Certificate
Google | July 2021

EDUCATIONAL BACKGROUND

Bachelor of Technology (B.Tech.) - Computer Science & Engineering
Murti Devi Memorial College, Pilana | 2013 - 2016
Affiliated to Chaudhary Charan Singh University, Meerut

Diploma in Engineering - Computer Science
University Polytechnic, Moradabad | 2010 - 2013
Teerthanker Mahaveer University, Moradabad
